

HUGO®

Pallet Stacker

We have lots of pallet stacker for sale, such as semi electric stacker, walking type electric stacker, standing on type electric stacker etc. HUGO stackers are designed to enhance productivity, ensure safety and optimize returns. Our comprehensive portfolio has something for every application, accounting for different space limits, load sizes, floor conditions, operation time and other needs.

We have lots of pallet stacker for sale, such as semi electric stacker, walking type electric stacker, standing on type electric stacker etc. HUGO stackers are designed to enhance productivity, ensure safety and optimize returns. Our comprehensive portfolio has something for every application, accounting for different space limits, load sizes, floor conditions, operation time and other needs.

HUGO's pallet stackers have advanced electronic control, ergonomics & manoeuvrability. With HUGO in your facility you can stack heavy loads easily, ergonomically, efficiently and smartly.

Product Introduction: 5

Walkie stacker

A pallet stacker is an electric walk-behind forklift with a mast capable of raising and lowering loads. HUGO offers a full line of electric walkie stackers, including the following stacker models: 1T 2T 1.6M 2M 2.5M 3M and 4M 5M 6M

Main Parameters of CDD Stacker

Basic parameters	1 Product model	CDD
	2 Driving mode	Electric
	3 Operation method	Stand-on model
	4 Rated load	Q kg 1000、1500、2000
	5 Load center	C mm 500
	6 Axle base	Y mm 1480

	7 Dead weight (excluding battery)	kg	680
	1 Tire		PU wheel
	2 Dimensions of driving wheel	mm	∅ 250×80
	3 Size of front wheel	mm	∅ 80×70
Wheel	4 Dimensions of balance wheel	mm	∅ 125×50
	5 Quantity of wheels (front/rear) (x= driving wheel)		1x+2/4
	6 Front wheel track	mm	510
	7 Rear wheel track	mm	620
	1 Overall height (when the fork is the lowest)	h1 mm	2080
	2 Overall height (when the fork is the highest)	h2 mm	3380
	3 Lifting height	h3 mm	3000
	4 Free lifting height	h4 mm	0
	5 Ground height of fork (when the fork is the lowest)	h5 mm	85
	6 Ground height of the operating handle (maximum / minimum)	h6 mm	1450/1020
Basic dimension	7 Total length	L1 mm	2030
	8 Distance from the front end of the fork to the front part	L2 mm	1000
	9 Total width	b1 mm	860
	10 Dimensions of fork (metal plate)	s/e/lmm	160*50*1000
	11 Outer width of fork	b3 mm	680/550
	12 Minimum ground clearance	m mm	35
	13 Width of the right-angle stacking channel, tray 1,000x1,200 (1,200: along the fork edge)	Ast mm	2500
	14 Turning radius	R mm	1800
	1 Driving speed full load / no load	km/h	4.5/5.5
	2 Lifting speed full load / no load	mm/s	50/100
	3 Load-lowering speed full load / no load	mm/s	140/135
Property	4 The maximum gradeability full load / no load	%	5.0/8.0
	5 Brake mode		Electromagnetic brake
	1 Driving motor power	kw	1.5
Motor	2 Lifting motor power	kw	2.2
	3 Battery voltage/capacity	V/Ah	24/2*70
	4 Power cell weight	kg	70/195

Feature And Application

Walking type electric pallet stacker are self propelled pedestrian controlled electric power stacker, with electrically operated lifting function. The trucks are designed for stacking operations in dedicated racking by lifting and lowering the palletized load up to the desired lifting height.

pallet stacker has to be used on substantially firm, smooth, prepared, level and adequate surfaces. The truck is intended to be used for indoor applications with ambient temperatures between +5°C and + 40°C and for light duty applications without crossing permanent obstacles or potholes. Operating on ramps is not allowed. While operating, the load must be placed approximately on the longitudinal centre plane of the pallet stacker.

Walkie Stacker Details

pallet stacker for sale Multifunctional handle, the handle has a tortoise speed switch, which can be stowed and has the function of walking upright

Manganese steel fork adopts bending technology, the front end of the fork can be customized round or square, and the bottom of the fork has reinforcing ribs, which can improve the load-bearing capacity

n/off of delivery trucks

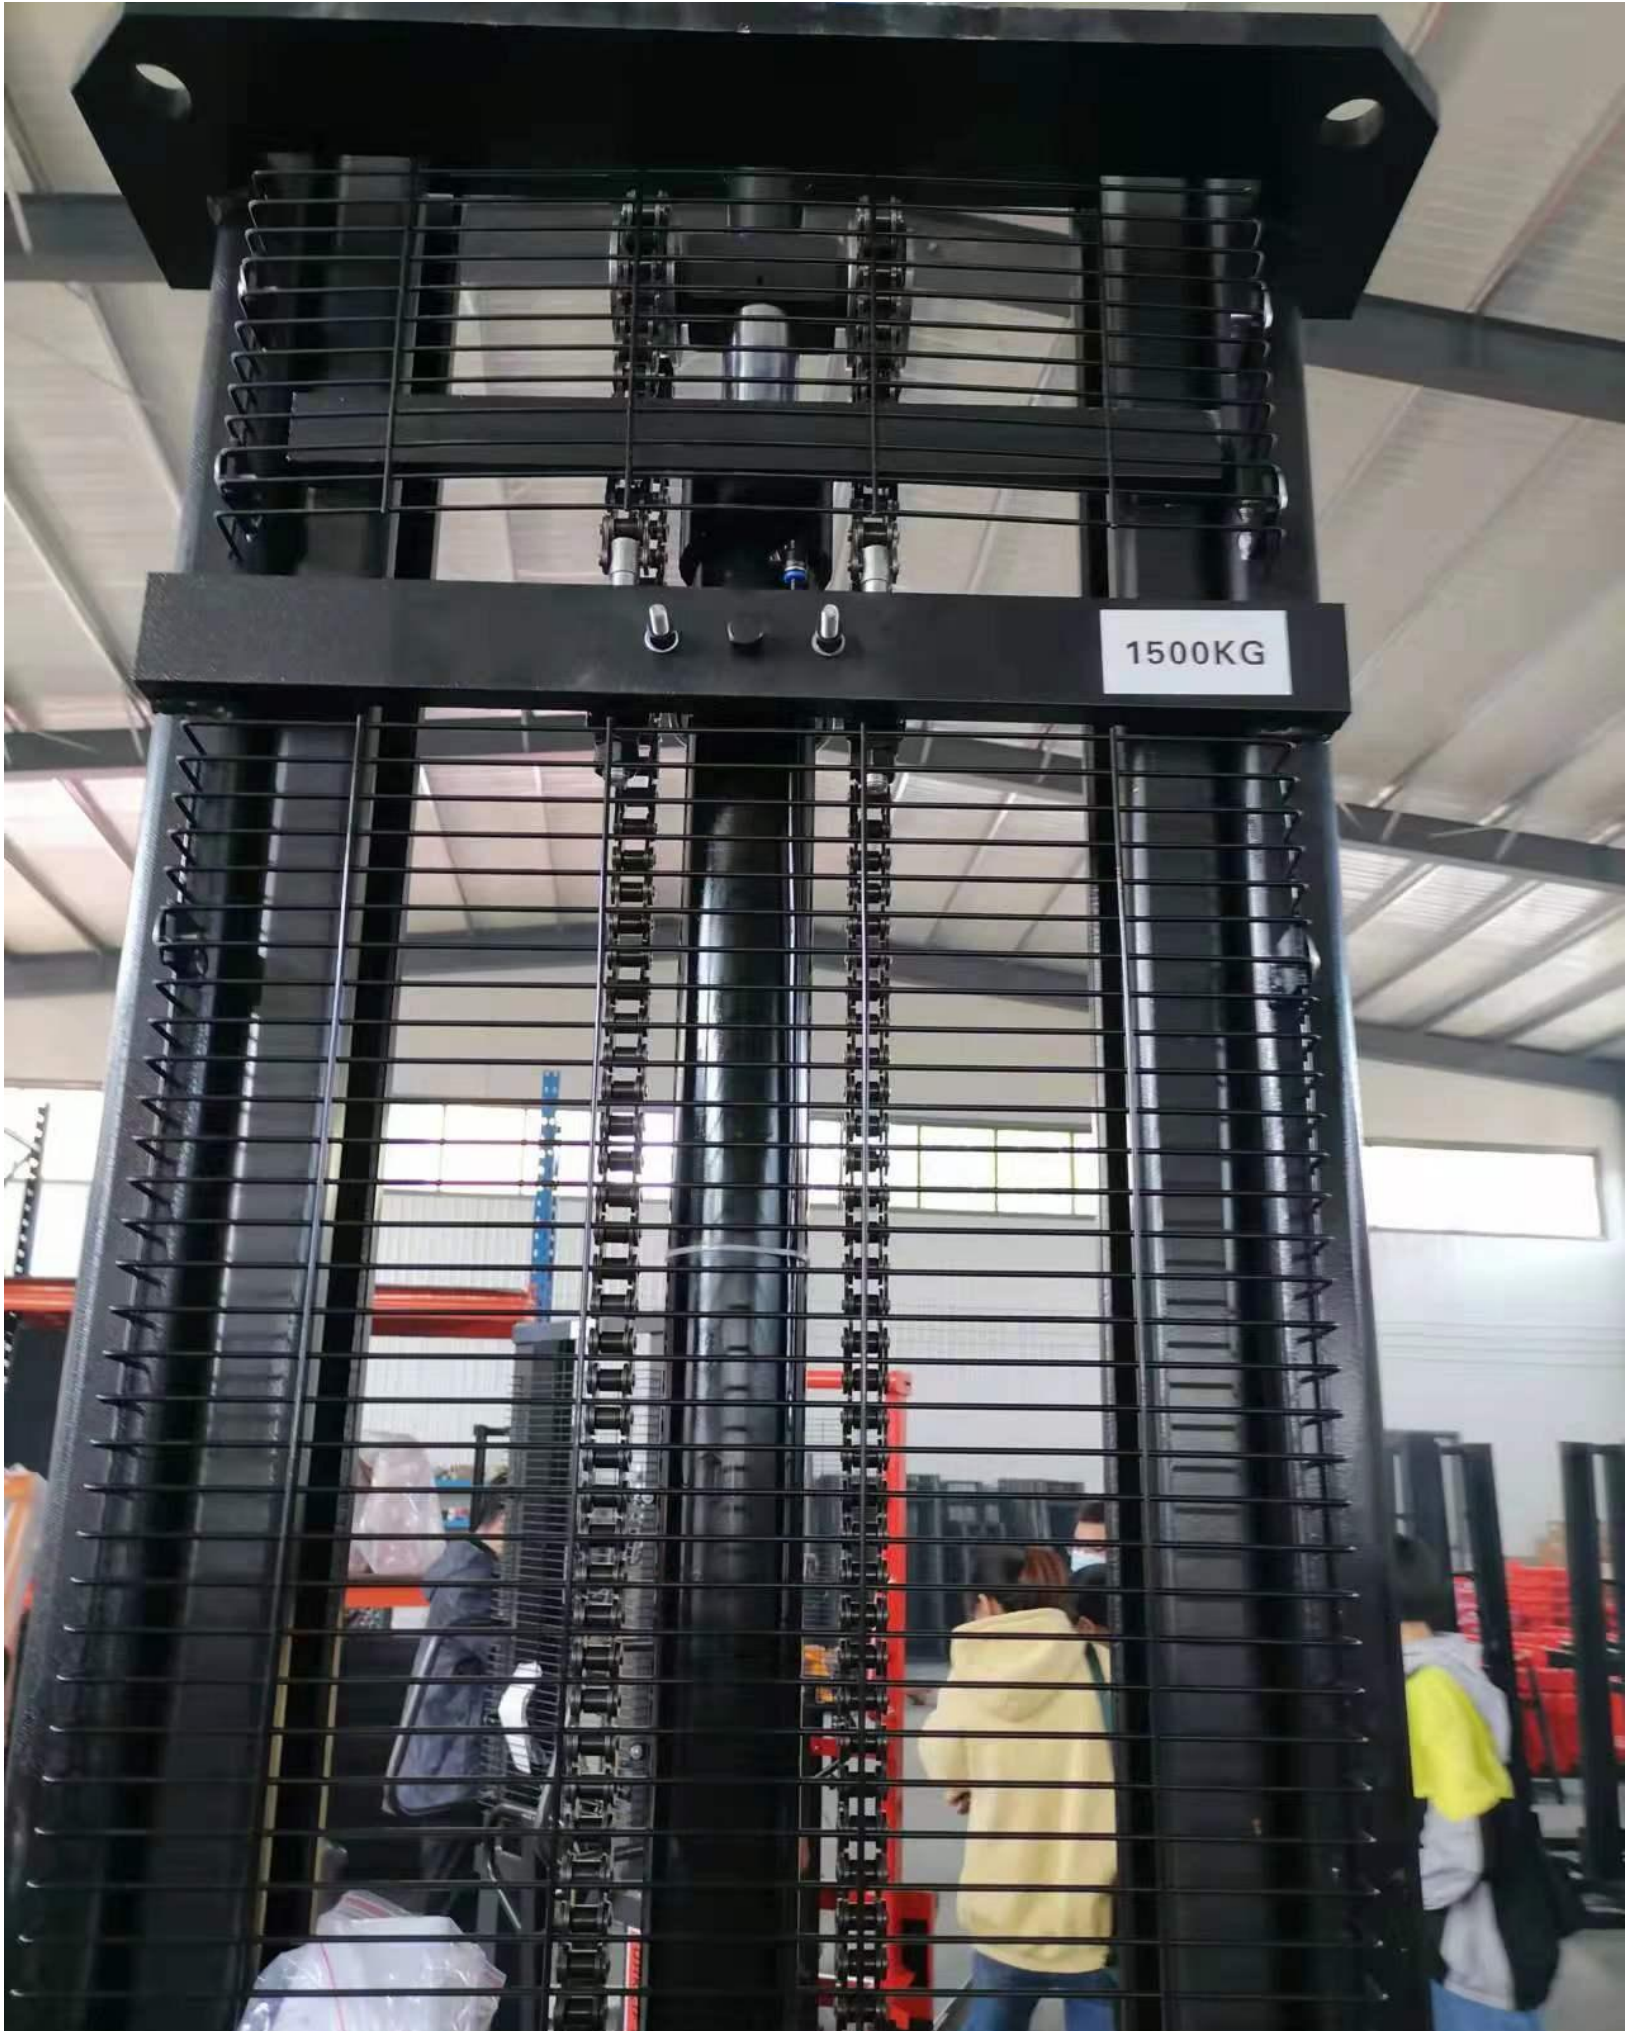

The fork of pallet stacker is adjustable and very flexible to meet your different needs, each fork have reinforced steel and it can ensure the high quality of bearing, it have long term lifetime.

High-quality oil cylinder

using imported lifting originals, upgrading the original technology, quickly lifting the oil cylinder, lifting fast and powerful

Cylinder design

The solid piston oil cylinder is designed, and the key oil circuit position is made of steel pipe to prevent oil leakage.

Multi-function operating handle

Tel:+86-13331211844

Email:sales6@yiyingroup.com

Reliable, beautiful, and simple. All operating functions can be completed with one hand. The standard configuration of upright walking function can be used upright in narrow passages. The emergency reverse button on the head of the handle will encounter an emergency when driving backwards, which can effectively avoid operators Get hurt. Multifunctional handle, the handle has a tortoise speed switch, which can be stowed and has the function of walking up right.

Product Qualification

Shanghai Yiyong Crane Machinery Company is headquartered in Shanghai and is a professional lifting crane and storage equipment manufacturer with 20 years of experience. We are advanced in technology and resources. We have already done business with about 30 countries all over the world.

The company's main lifting machinery products include hoists, pallet trucks, stackers, magnetic cranes, jacks, and so on. We provide customers with one-stop service, saving customers time and cost. Our old customers praise our products. We also have a professional technical team in design and production that can meet different requirements from customers, that's why we can support OEM production lines. We offer 24-hour pre-sales and after-sales support to ensure timely communication between clients and us.

We are the designated product of the Belt and Road. We have a special quality test department, and all of our products will undergo 3 tests before delivery. Quality is guaranteed.

Warmly welcome customers from home and abroad to establish a business relationship with us.

Delivery, Shipping And Service

FAQ

1. What is the common model of the pallet stacker?

Common model 1ton 2ton .lifting height from 1.6m to 3m. We can also do the customized model for you.

2. What's the information should I provide when inquiry?

Thanks for your question. The more information you provide, the accurate solution we can prepare for you! The information such as the lift capacity, span, lift height, or other specials you give us will be more appreciated.

3. What is your MOQ ?

1 pc it is available.

4. What's the information should I provide when inquiry?

Lifting capacity, lifting height and quantity is needed.
